COAL AGE

With Which is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME XXXIII

January to December 31, 1928

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles or cuts standing by themselves are indicated by an asterisk (*). All editorials appear under that subject, each having its exact title. Elsewhere the subject matter of an editorial will be found classified and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

Following is a list of the pages included in each issue of the volume, together with date and number of the issue, for convenience of reference:

	Page
Jan.	1-72
Feb.	73-136
Mar.	137-200
Apr.	201-264
May	265-328
June	329-404
July	405-468
Aug.	469-524
Sept.	525-584
Oct.	585-660
Nov.	661-720
Dec.	721-784

A

Accessories, mine, exhibited at Cincinnati. *	371
Accidents. See also Safety	
April, 1928	393
August, 1928	660
Can mines strike sparks?	100
Castlegate No. 2 (Utah Fuel Co.) blast; none hurt	569
Cause, etc. Turner	*14
Certain questions Franklin might have asked	*24; correction, 101
Crow's Nest Pass Coal Co., explosion kills 6	568
Discussed at Cincinnati	342
Explosions:	
American and foreign	184
Cause investigated in Great Britain. Hall	439
Dollar meter suggested as air indicator*	331
Explosions choose what men refuse (e)	440
Four	385
Himler, three killed	770
Marine Colliery	296
Mather (e)	378
Pewer in 1927. Turner	*14
Fires. See Fires	
Hidden cost of	764
Industrial Coal Co.	375
January, 1928	115
January and February, 1928	185
June, 1928	248
July, 1928	513
May, 1928	573
Miner of the future. Miller	455
October death rate shows decline	237
Prevention. See Safety	
September, 1920	710
Stop watch held on accidents.	*330
Was every precaution taken? (e)	173
Who gets hurt? (e)	494
Accountant and engineer	223
Accounting, proper, turns losses into profits. Stender	687
Accumulator, steam	*261
Acid mine drainage (e)	644
Activity in coal industry, indicators, 122, 188, 250, 324, 396, 458, 516, 576, 646, 776	
Adams Coal Co., new mine?	394
Advertising anthracite	(e) 232, 241
Aid, first. See First Aid	
Air, compressed. See Compressed Air and Compressors	
Air, in mine, importance of conserving (e)	441
See also Ventilation	
Air, intake, definition of	659
Air cleaner for dusty motors	*464
Air cleaning of coal. See Preparation, Cleaning	
Air hoists, new	*522
Air indicator, dollar meter suggested.	*331
Air quantities, measurement, and energy losses in mine entries	761
Alabama	
Abolishes convict mining	446
Alabama issue of Coal Age, October, 1928	
Blazing trail in	642
City furnace, Birmingham, at night.	*586
Coal, and new industrial South. Morrow	585

Alabama—Continued.

Coal field that underwrote Birmingham's industry. Hall	*587
District prices, 1918-1927. McLaurine	*66
First-aid and safety meeting	394, *454
Market in 1927. McLaurine	*66
Mechanization of fields. Hall	*597
Mining communities, views in	*632-633
Modernization in. Davidson	*35
Pioneers	*596
Power blankets mining region	*641
Safety work	*709
Stabilization. Hale	*591
Alabama Fuel & Iron, pioneer in central washing	*605
Alabama Power Co. blankets mining region.	*641
Alberta appoints Board of Standards	320
Research council, report for 1927 noted.	761
Alden, Ala., development by Flat Top, Edwards	*610
Aldridge, skip hoisting and drop-bottom cars	*602
Aldrich, T. H., Alabama pioneer	*596
Alloy, high copper bronze, with nickel.	520
Alta Coal Co., triumph of management at.	*609
Altoona Coal & Coke Co., resumes.	48
Amer. Coal Cleaning Corp., patent case.	512, 568
Amer. Eng. Standards Committee, year-book	445, 559
Amer. Institute, coal luncheon, New York.	767
Amer. Institute of Electrical Engineers—Lehigh Valley Section, meeting.	*305, *771
Amer. Institute of Mining and Metallurgical Engineers	
Bradley, F. W., to be president. McAniff, E., director	707
Cancels northern trip	507
Committeemen appointed	244
Honors Hoover; elects G. O. Smith	*186
Meeting	118, *139, *186, 507
Ohio section discusses mechanical mining	291
Amer. Mining Congress	
Cincinnati convention, exhibits, etc., issue of June, 1928	
Cincinnati meeting and exposition, program, etc., 183, (e) 232, *243, *297, *339	
Mechanization discussed	*339
Convention	*52
Meeting	120
Convention	709, 769
Amer. Rolling Mill, promoting good will among men. Edwards	*540
Amer. Soc. for Testing Materials, book, 1928 Supplement	697
Amer. Soc. of Mech. Eng., materials-handling meeting	242
Mining and processing discussed at meeting	569
Amer. Standards Ass'n, new title for Committee suggested	451
Amer. Wholesale Coal Ass'n, meeting.	387
Anaconda Copper team wins first-aid contest	*572
Analyses of Arkansas and Oklahoma coals, papers noted	383
Analyses at tipple	*403
Analysis of coals at Hazleton	305
Anderson, G. J., new pres., Consolidation Coal	320
Angle-face rooms in W. Va. mine	*192
Angle-face system. Straughan	697
Angle-face system urged. Walton	381
Anthracite	
Canada, in 1927. Cook	67
Consumption steady, stocks decline.	450
Cum and silt, publication noted.	697
Frost Research Laboratory to make study	774
Future, and contented labor	*771
Hitting its stride in market battle.	*29
In 1927	64-67
Pa. Dept. of Mines, report for 1923-26 noted	559
Prices, 51, *54, 244, 386	
Prices, 1927, and 1918-1927	*54
Production, 122, 188, 250, 324, 458, 516, 576, 646, 712, 776	
Research, instituted	652
Sales program, new, needed. Hale	548
Shipments decline	705
Shipments higher	767
Thin beds, mining of; book review	555
Anthracite Operators' Conference, traffic bureau formed	703
Anvil, hand, and power hammer combined.	*522
Apparatus standards, handbook noted.	559
Arbitration. See Labor	
Arms, wheel-to-rail, on "wireless" equipment?	763
Arcweld. See Welding	
Arkansas, coals, analyses; paper noted.	383

Arkansas Anthracite Producers' Ass'n formed	511
Armatures. See Electricity, Power and Equipment	
Army, U. S., receives bids for coal.	178
Arnold, G. C., receiver, W. Va. Coal & Coke Co.	51
Arrester circuit, impedance decreased	*503
Arzinger flotation cell used at New Castle	*639
Ash, inherent, a misnomer. Turner	472
Ash in coal (e)	173
Ash in coke, discussed	296
Ash in fuel shown by X-rays	561
Associations and Institutes. See names of associations, as Amer. Institute of Mining and Metallurgical Engineers	
Automatic control aids pumping. Kenworthy	*84
Automatic control of mine substations	*401

B

Babbitt scrap, recasting	*129
Ball added to transfer car saves labor.	*762
Baker, Dr. T. S.	*726
Baker, H. F., quits Pittsburgh Terminal.	512
Baltimore market in 1927. Hough	65
Banker-industrialist looks at coal business (e)	754
Bankers, budgets and management (e)	201
Bankhead Mine. See Cane Creek Coal Co.	
Bargaining, collective. See Labor	
Battery, short, saves coal and lives. McKim	*663
Battery handling, conveniences for.	*487
Bearings, lubrication, tested	260
Bell & Zoller Coal & Mining Co., bottom equipment, new, at Zeigler No. 1.	*542
Belle Ellen, new washery	452
Belt carrier for any type bearing	*261
Belt conveyors, see Loading and Shoveling	
Belt drives, loose, may save money.	*762
Belts, conveyor, lap splice favored.	*701
Belts lead coal from dumps to tipple	160
Benches, coal, keeping product separate. Maloney	544
Bertha Consumers Co., in receivers' hands.	182
Berwind, J. E., dies	*394
Bessie. See Sloss-Sheffield Steel & Iron	
Bethlehem-Fairmont Coal Co., Scott mine, machine loading. Haymond	*685
Bids to be opened	115
Big Ben Coal Co. buys strip land.	50
Big Vein Coal Co., Buckskin mine made profitable	*729
Biggest problem in 1928	*6
Bill sees the light. Emigh	681
Bird, B. M.	*735
Birmingham, Ala., city furnace at night.	*586
Coal field that underwrote its industry. Hall	*587
Views	*590
Bituminous	
Canada, in 1927. Cook	67
Consumption, exports, prices and production *54, 122, 180, 188, 250, 324, 388, 450, 458, 516, 576, 646, 703, 712, 776	
Prices, 1927, and 1918-1927	*54
Stocks decline	178, 185
U. S. Shipping Board to encourage coal exportation	569
Black art, study in	*138
Black Diamond resumes	452
Black Mountain, explosion	385
Blades, steam turbine, tests of fatigue strength	761
Blasting	
Blasting underlying a tender roof, etc., bulletin noted	697
Cardox, use of	*160
Cardox and mechanical loading. Weir and Edwards	*288
Explosives, correct handling	*128
Explosives, permissible	*490
Explosives, permissible, publication noted	559
Flames from explosives, research needed (e)	175
Improved, cuts strip-mine costs. Nielsen *210; correction 410	
Insulated mine-car couplings	*502
Liquid oxygen, cuts strip mine costs. Nielsen *210; correction 410	
Liquid oxygen, new plant	51
Lump coal—how to get it	*142
Lump, increased, a much sought goal.	443
Mather explosion (e)	378
Method, new	319
Misfires, prevention, bulletin noted.	697

*Gift
Hott Turner

BOSSSES TALK IT OVER—LETTERS

	Page		Page		Page
ALLAN, A. A. Loss of mine minerals through procrastination	557	Increased production of lump coal....	443	Mine Foreman. Plenty of cars mean more coal	382
BENNETT, A. Dispatcher a necessity...	311	Power, adequate, for machinery	46	Musgrove, J. F. Successful foreman.....	757
Force of day men should be kept	499	Responsibility for supplies	559		
Real boss, characteristics of.....	757	Size of day force	498		
Bennett, J. Bringing down coal	236	HOWES, H. C. Foreman and electrician 236; see also 383		POWELL, J. W. Dispatching systems....	313
Loss and waste of supplies	558	Foreman should direct upkeep as well as output	236	Foremen	176
On foremen	693	Hunter, W. W. Concentrated mining advised	498	Hand drilling	175
Successful foreman	758	Mine conditions and layout	444	Repair system effective	45
Blair, J. H. Foreman vs. electrician 383, see also 236		Skilled foreman	759	Russians use larger cars	381
Bohn, J. Foresight, etc., in hiring day men	497	Training in first aid	696		
Maintenance equipment	46			ROSE, G. W. Mine foreman takes chance	112
Mine telephones	381			Phones in mines	312
Shearing	444				
Britisher, M. Mine dispatching system	697	J. A. R. Complete records and economical production	497	SEESE, M. Upkeep under electrical head	111
Bullock, O. Saving by electrician	111	Definite cost for supplies is difficult..	557	Selkirk, T. Dispatching pays dividends	382
		Lump coal increased by shearing	443	Shaw, J. A. Power factor control.....	235
		Successful foreman	758	Simpson, R. E. Electrical equipment....	45
		Telephone in mine	312	Straughan, W. E. Angle-face system....	697
EDWARDS, G. "Before and after" and dispatching	382	James, T. Careful check-up necessary....	112	Foreman's influence	758
Bringing down coal	175	Profit in power study	235		
Careful inspection of mine	47	Standardization and wise buying.....	695	THOMAS, J. R. Block signals prevent wrecks	383
Mine telephone installations	311	Standardization and wise buying.....	695		
Saving power	235	Jones, J. Human relations	177	WALTON, H. T. Cost balance and day men	498
Ely, I. J. Co-operation will reduce outlay..	47	Jones, J. T. Time to save supplies is now..	557	Dispatching system	313
Dissatisfied men and cost sheet	497	Jones, J. W. Cites leaks in human labor..	381	Shearing only after full investigation..	443
Quick recovery of supply material....	558	Foremen must co-operate with labor..	559	Supply cost held down	558
Emery, R. Careless worker	177			Urges angle-face system for steady supply of cars	381
Costs and tonnage decreases	498	KRAUSE, E. Efficient help prevents breakdowns	47	Waiting until "repair day"	46
Slack, increased, justified	444	Successful foreman	758	Warner, W. E. Bringing down coal	236
English, T. Making repairs	693			Changes in mine layout should be gradual	177
		LIVELY, C. E. Mine foreman and machinery	47	Correction of power factor	445
FAIR PLAY. Successful mine officials and their men	46	Prompt recovery of supplies	558	Daily records of repairs	695
		Safety gives returns	113	Getting out the coal	236
GAUL, F. Conservation of supplies....	558	Switch in last break-through preferred to double track	382	Must suit action to mine	381
Grimm, C. T. Block signals and phones...	312	Luxton, W. H. Lump-coal problem.....	443	No standardized day force	559
Efficient distribution and reports....	696	Phones save life and limb	381	Simple records best	112
Bringing down coal	175	Successful foreman	758	Foreman training	759
Care of equipment	111			Wear on ropes reduced by lubrication..	47
Engineering technique needed in loading	381	McGEORGE, D. Order system check on repairmen	45	Wentz, D. B., Jr. Foreman's influence....	757
		Miller, F. Miner of the future	237	Wronowski, A. Use of practical men urged	382
		Supervision	176
